This is a lovely tale of modern meets the beach and let me just say that Team San Diego has completely outdone themselves. They're wedding rockstars and they have a trail of gorgeous images to prove it courtesy of lunaphoto. On top of one drool-worthy seaside shot after another, are all of the modern, sculpturesque florals and succulents crafted by Isari Flower Studio and we can't go without mentioning all of the perfect details whipped up by CBS Weddings. It's heart fluttering to say the least and the airplane message? The cherry on top. [See it all here!](#)
