*Bring on the ruffles!*

**By Vané Broussard**

If you've checked out any bridesmaids dresses lately, you'll see that ruffles are back in a big way, in every shape, form and color. Since they're so stylish, many are wearable beyond the wedding, and your bridesmaids will be sure to thank you. Here are some of my favorites...

**57Grand** - This new line of stylish dresses are all \$200 or less!

**Quail Bridal** - dresses made totally from ruffles? Its like wearing a dress of carnations!

**Simple Silhouettes** - The Aster dress is one of my favorites, with a gorgeous ruffle collar...in purple its divine.

**Thread** - lots of gorgeous ruffly-goodness to check out here...Stella and Serena are just perfect.
